

Itasco Precision Ltd Environmental Policy

Itasco Precision are a Precision Machining and Weld Cladding Company, servicing the worldwide manufacturing industry for over 25 years. The Directors and staff of Itasco Precision recognise the environmental impacts associated with our major activities relating to engineering work as well as the issues relating to our peripheral activities. We aim to implement all reasonably practicable measures to prevent pollution to our surrounding environment and will comply with all current environmental regulations, legislation and approved codes of practice.

In achieving these aims the company will:

- Ensure that the we meet or exceed all relevant and current environmental legislation regarding our business operations;**
- Strive to ensure that all of our wastes and chemicals are handled, stored and disposed of as required not only by legislation, but as examples of best practice;**
- Work to reduce the amount of waste produced, in terms of both production and office/other waste;**
- Investigate and implement measures which would reduce the consumption of raw materials (especially water, electricity, gas and chemicals);**
- Strive to minimise the risk of pollutant disposal to water, land and air;**
- Establish objectives and targets to support this policy and review them regularly to ensure we continually improve our environmental performance;**
- Develop, implement and achieve certification to the international standard for environmental management systems - BS EN ISO 14001;**
- Provide appropriate training to our employees to enable them to implement this environmental policy;**
- Exercise control, as far as is possible, over the environmental impacts arising as a result of work being undertaken on our behalf by our sub-contractors, suppliers and maintenance contractors; and**
- As far as possible, encourage and support our suppliers and customers to implement their own environmental management systems**

Itasco Precision will endeavour to increase environmental awareness and understanding within the workforce in order to meet the above aims.

The Manufacturing Director has direct responsibility for the implementation of this policy and the effective implementation and operation of the environmental management system.

Russell Davies, Director
